WHY JOIN THE AMERICAN HORSE COUNCIL?

Have a Voice

Help us Stand up for the issues that are important to the equine industry.

Be a Leader

Be seen as an integral player in shaping the future of the equine industry and ensuring its longevity.

Be Informed

Receive invaluable information on events, legislation and regulations that could impact our industry.

The AHC is the only national association exclusively representing every segment of the vast equine industry here in Washington, DC. We are deeply committed to serving the needs of our members and fulfilling our mission of advocating for the equine industry in the U.S.

Regardless of breed, discipline or business, decisions made in Washington, D.C., affect you, your sport, and your equine.

WE NEED YOUR HELP TO CONTINUE TO HAVE OUR VOICE HEARD.

2017 Economic Impact of the United States Equine Industry

7.2 million
horses are in the
United States

\$122 billion
Economic
Impact

1 million
Direct Jobs result
from the equine
industry

1.7 million
Total Employment
Impact

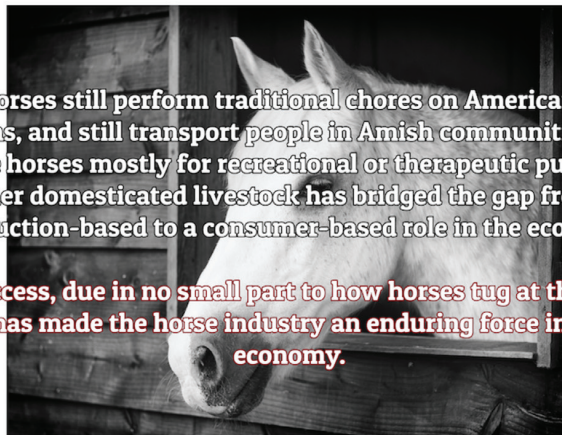

1.6 million
U.S. households own
a horse

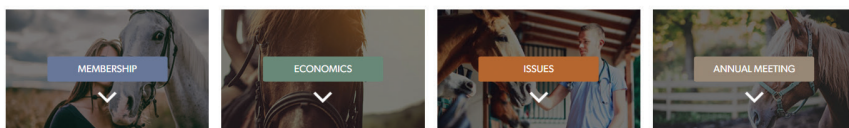

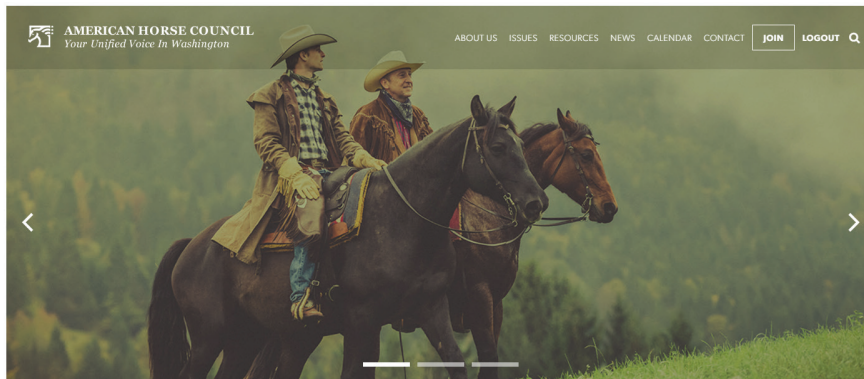

38.3 million
U.S. households are
equine enthusiasts

While horses still perform traditional chores on American ranches and farms, and still transport people in Amish communities, people today use horses mostly for recreational or therapeutic purposes. No other domesticated livestock has bridged the gap from a production-based to a consumer-based role in the economy.

This success, due in no small part to how horses tug at the human heart, has made the horse industry an enduring force in the U.S. economy.

Stay informed with our newly renovated website!

OUR MISSION

The American Horse Council works daily to advocate for the social, economic and legislative interests of the United States equine industry.

WHAT WE DO Health & Welfare

Advocate for the health and well-being of horses by serving as a forum for discussion on welfare issues and sharing best practices.

LATEST NEWS

As the national association representing all segments of the horse industry in Washington, DC, the American Horse Council works daily to represent your equine interests and opportunities.

LATEST NEWS

As the national association representing all segments of the horse industry in Washington, DC, the American Horse Council works daily to represent your equine interests and opportunities.

The American Horse Council is proud of our newly redesigned website. We have redesigned it with horse enthusiasts in mind, streamlining menus, simplifying navigation, building a responsive layout for all platforms and providing more resources and information on our services and products. In addition, the new site reflects who we are and boasts a clean, fresh look with some dynamic photos expressing the beauty and passion of all segments of the equine industry.

We encourage everyone to visit and explore the site, discovering the full spectrum of resources available including legislative and regulatory issues, health and welfare, and a number of industry initiatives underway. We feature white papers, guides, templates and webinar content to help you make informed decisions on issues affecting the industry.

Visitors can visit, browse, and read excerpts from member focused content – with the option to easily join and gain access to exclusive news and updates. To stay connected on social media, follow us on Facebook, Twitter, Instagram & Linkdin.

UNITED HORSE COALITION

EDUCATE. ADVOCATE. COLLABORATE.

*Working together
to help America's
horses in transition*

The American Horse Council's Unwanted Horse Coalition (UHC), formed in 2006 to bring attention to the issue and challenges of unwanted horses, will be renamed and rebranded as the United Horse Coalition.

The changes reflect the industry's unity around the importance of aftercare and the progress and extensive resources that have come to fruition since the UHC's inception. The UHC's new mission statement reads,

"Through industry collaboration, the UHC promotes education and options for at-risk and transitioning horses."

Equine Welfare Data Collective

About Us

An objective research program developed by a collaboration of agencies invested in improving equine welfare.

Funding Agencies

ASPCA, AAEP Foundation, The Right Horse Initiative, and United Horse Coalition (a program of the American Horse Council)

We need you!

We need all registered non-profit organizations that help at-risk equines to participate in our surveys.

It's free and easy! Go to the site below to submit your data today!

Saddle up with the American Horse Council's Congressional Cavalry

It's important that all members of the horse community are aware of federal issues that impact them and the horse industry. They also need to be willing to get involved and take action when Congress or federal agencies are making decisions that concern the horse community. There are several ways individuals can get involved, and one of them is by signing up for our **Congressional Cavalry**.

The Congressional Cavalry is the AHC's grassroots network. We let members of the Cavalry know when action of federal issues is needed and how to contact their Members of Congress via our AHC ACTION ALERTS. *There is no cost to join the Cavalry, and you will only receive Action Alerts from us when necessary.*

Individuals will be mobilized when there is a need for grassroots lobbying. The AHC will provide Cavalry members with the necessary information in order to contact their members of Congress about the issue at hand.

**Help the AHC continue to
“Put More Horsepower in Congress.”
Sign up for the Congressional Cavalry today!**

You may also email info@horsecouncil.org to sign up for the Congressional Cavalry

THE AMERICAN HORSE COUNCILS LEGISLATIVE & REGULATORY ACCOMPLISHMENTS 2014-2018

INTRODUCTION

The American Horse Council (AHC) represents the horse industry in Washington with a great deal of support and help from our members and sponsors. We thought it would be helpful for you to understand the work we do by documenting the accomplishments of the AHC over the last five years. These accomplishments reflect the industry's record of success.

Results in Washington, either in Congress or through the federal regulatory agencies, take time. Moving any part of the federal government involves a great deal of persuasion and education on a day-to-day basis, often over several Congresses or years. It also involves working with other coalitions and groups with similar goals.

As you review this list, remember that there is a great deal of work still to be done, including protecting what we have accomplished.

We must continue to ensure:

- that federal tax provisions are favorable to horse owners and breeders;
- that any gaming legislation considers the special needs of pari-mutuel horseracing;
- that horses are eligible for all federal emergency relief available;
- that horses can be efficiently moved internationally and interstate for breeding, competition and use;
- that import restrictions protect our domestic horses and are administered fairly and efficiently;
- that federal monies for research into equine diseases are available; that public lands are accessible to riders and outfitters;
- that federal funding is available to build and maintain trails;
- that there are sufficient legal foreign workers for farms, ranches and other equine facilities;
- that any nationally-mandated identification system for livestock recognizes the uniqueness of the horse industry and, that other issues that may arise are addressed.

Thank you for your support.

Please help us continue the effort together.

2018 ACCOMPLISHMENTS

- For the second year in a row, successfully advocated for increased, dedicated funds for Equine Assisted Activities and Therapies (EAAT) for veterans, championed by Rep. Barr, from \$1 million to \$1.5 million, within the FY2019 Department of Veterans' Affairs (VA) spending package.
- Clarified a provision in the Agriculture Improvement Act of 2018 (farm bill) to preserve classification of horses as "livestock," as opposed to "pets" or "companion animals," while allowing horses to be covered within the context of a broader women's safety program.
- Authorized major livestock health measures within the 2018 farm bill, including the Animal Disease and Disaster Prevention Program, creation of a Foot and Mouth Disease Vaccine Bank, and increased funding for the National Animal Health Laboratory Network (NAHLN).
- Tax Policy – successfully extended an expired three-year depreciation incentive for racehorses through 2017, and advocating for an additional extension through 2018.
- Tax Reform - monitoring regulatory clarifications to the Tax Cuts and Jobs Act of 2017, especially as they relate to new tax deductions for small business, aka, "pass-through" entities; advocating for repeal of the Unrelated Business Income Tax (UBIT) burdens imposed on nonprofits.
- Pushed reforms to the H2A Agriculture Guest Worker visa program, clarifying that diverse segments of the horse industry automatically qualify for an expanded pool of farm worker visas.
- Worked on reforms to the H2B Guest worker Program and the increase on the H-2B visa cap
- Advocating for RNR Act, ROPA – Recreation Not Red Tape Act, Restore Our Parks Act; these bills remove barriers to outdoor recreation, making it easier for more Americans to get outdoors—enjoying its benefits and generating jobs. Expediting permitting, encouraging volunteers for maintenance, etc.
- Facilitating implementation of the National Forest Trails Stewardship Act; directs the Forest Service to develop a strategy to more effectively utilize volunteers and partners to assist in maintaining national forest trails
- Advocating for Prevent All Soring Tactics (PAST) Act – the House version gained 289 cosponsors by the close of 2018, successfully advocated for introduction of a Senate companion, which gained 45 cosponsors in 2018.
- Monitoring Horse Protection Act proposed regulatory changes – which continues to be in a holding pattern

- Advocated for industry engagement in the development of more supportive Import/Export Regulations; specifically 60 to 90 days rule change
- Supported Equine Disease Communication Center, and collaborated with various organizations and agencies on Disaster Response
- Provided education and advocated for changes to proposed Electronic Logging Devices and Commercial Driver's License
- Collaborated with industry on development of www.Horselookup.org, an equine microchip look up tool
- Continued efforts of the United Horse Coalition (formerly Unwanted Horse Coalition) to educate the public on responsible ownership and reduce the number of unwanted horses and by offering low cost or no cost gelding clinics. Also offered microchips and complimentary registrations to gelding clinics and rescue organizations.
- Launched the Equine Welfare Data Collective, a data collection initiative to provide population metrics of horses at-risk and in transition. Data will be analyzed on a national and regional level, and data reports will be released to the public free of charge. The first round of data collection launched November 1, 2018.
- Completed Equine Industry Economic Impact Study and reported results to Congressional Horse Caucus and equine industry organizations. Reports available www.horsecouncil.org
- Promoted Safe Sport, provided education to AHC members on requirements, and formed Safe Sport Task Force to help direct non-USEF organizations to resources.
- Conducted research projects on show/competition entry impediments and incentives, and equine health issues.
- Continued collaboration with AAEP on research challenges with goal of holding Equine Research Summit in 2019 to include funders and researchers.
- Continued AHC Marketing Alliance Time to Ride program which has exposed over 132,000 newcomers to horses and equine pursuits in the last six years.
- Ensured favorable tax provisions for the equine industry in the Tax Cuts and Jobs act of 2017 passed at the end of December: cutting corporate tax rates, reducing most individual tax rates, doubling the estate tax exemption from \$5 million to \$10 million, and a 20% deduction for "passthrough" entities such as partnerships, sole proprietorships and S corporations. Additionally, an increase in Bonus Depreciation from 50 percent to 100 percent for both new and used property acquired and put into service after Sept. 27, 2017, and before Jan. 1, 2023; and the Section 179 Deduction increased from \$500,000 to \$1 million for new and used property, and the phase-out threshold for the deduction has been increased from \$2 million to \$2.5 million.
- Working with other racing industry organizations, secured a change in the new IRS "Winnings" rule, which changed federal withholding and reporting requirements for pari-mutuel winnings. The new rule arises from a notice of proposed rulemaking issued in late 2016, on which the equine industry submitted comments, laying the groundwork for the new regulatory flexibility. The tax rules will effectively exempt large numbers of winnings from the federal definition for "amount of wager." The new threshold effectively exempts a large number of bets from triggering the imposition of a 20 percent withholding on winnings, thereby reflecting a consumer trend toward "exotic wagering pools" in modern betting.
- Collaborated with other members of the livestock industry to address the Electronic Logging Device (ELD) Mandate to request that the Department of Transportation (DOT) grant a one-year enforcement delay followed by a waiver and limited exemptions from compliance with the December 18, 2017 implementation date for the Final Rule on Electronic Logging Devices (ELDs) and Hours of Service (HOS). The AHC also published two handouts to clarify both the ELD and Commercial Drivers License (CDL) requirements.
- Continued to advocate for H2-B Visa cap relief by encouraging cap relief in the FY2018 Appropriations bill, as well as the Strengthen Employment and Seasonal Opportunities (SEASON) Act (H.R. 2004) and the Save Our Small and Seasonal Businesses Act of 2017 (S. 792).
- Worked with members of Congress on the "Recreation Not Red-Tape Act (RNR)" (S. 1633, H.R. 3400), legislation that expands the scope of the National Forest System Trails Stewardship Act (PL 114-245), signed into law in late 2016. While the RNR focuses on streamlined permitting to access public lands, the bill includes provisions that would authorize the Department of the Interior, through the Bureau of Land Management (BLM), to enter into cooperative agreements with private parties to promote the role of volunteers in trail maintenance.
- Advocating for an amendment within the FY2018 Department of Defense Appropriations Bill that would fund equine therapy for veterans

2017 ACCOMPLISHMENTS

- Published the National Equine Health Plan (NEHP) in conjunction with the American Association of Equine Practitioners (AAEP), the United States Department of Agriculture (USDA), and state animal health officials. The goals of the NEHP are to protect the health and welfare of the U.S. equine population, facilitate the continued interstate and international movement of horses and their products, ensure the availability of regulatory services, and protect the economic continuity of business in the equine industry.

- Introduction of the Prevent All Soring Tactics (PAST) Act in the House by Representatives Ted Yoho (R-FL) and Kurt Schrader (D-OR). The bill is intended to strengthen the Horse Protection Act (HPA) and prevent the soring of Tennessee Walking Horses, Racking Horses, and Spotted Saddle Horses. The bill currently has more than 275 sponsors in the House.
- Promoting the Animal Disease and Disaster Prevention Program within the context of the 2018 Farm Bill.
- Promoting the Foot and Mouth Disease Prevention Program within the 2018 Farm Bill.
- In 2017, the Equine Disease Communication Center (EDCC) sent out 315 alerts reporting on 404 total outbreaks/cases.
- Overall totals for the EDCC:
 - o 694 alerts posted since April 2015
 - o 897 outbreaks reported since April 2015
 - o 3,447 addresses on the EDCC email alert subscription list
 - o 4,590 following on Facebook
 - o Time to Ride hit a major milestone by successfully introducing over 120,000 new horse enthusiasts to the equine industry through over 1,500 hosts throughout the country.
- In 2016 Time to Ride also launched new collaborative programs including the Pledge to Take a Friend Riding, and Collegiate Challenges held at Colorado State University and Texas A&M University.
- Continued to advance the Equine Disease Communication Center (EDCC). 2016 Numbers to date:
 - 239 Alerts posted since January 1, 2016
 - 251 Outbreaks reported since January 1, 2016

EDCC Totals:

- 344 Alerts posted since April 2015
- 485 Outbreaks reported since April 2015
- 2,142 subscriptions to the EDCC email alert list

- Continued to gain support for the AHC Welfare Code of Practice. The code of practice is a broad set of principles designed to establish good welfare procedures for organizations to follow to "Put the Horse First," and has been endorsed by 54 national horse organizations.

2015 ACCOMPLISHMENTS

- Secured a two year extension of 3-year-depreciation for all race horses retroactive to January 1, 2015 through 2016. From 2009 through 2014, race horses could be depreciated over three years, regardless of when they were placed in service. That change, which eliminated the 7- year depreciation period for race horses and made all race horses eligible for three-year depreciation, expired at the end of 2014.
- Helped achieve a permanent extension of the Section 179 business deduction to \$500,000. It had reverted to \$25,000 at the end of 2014. Anyone in the horse business can now immediately depreciate up to \$500,000 of the cost of any investment in business assets, including horses, purchased and placed in service after January 1, 2015. The deduction is reduced dollar-for-dollar once investment in all one's business activities hit \$2 million.
- Helped achieve a five year extension of bonus depreciation for qualifying new property, including assets used in the horse business, such as horses and other equipment, purchased and placed in service after January 1, 2015. The bonus depreciation percentage is 50 percent for property placed in service during 2015, 2016 and 2017 and phases down to 40 percent in 2018, and 30 percent in 2019. The first use of the horse or equipment must begin with the taxpayer. This had expired at the end of 2014.
- Supported restoring and making permanent favorable tax treatment for land donated for conservation purposes, particularly land donated by farmers and ranchers. This will benefit horse farms and help protect land for equestrian uses.

2016 ACCOMPLISHMENTS

- Achieved passage of the National Forest Service Trail Stewardship Act (H.R. 845/ S.1110). This law directs the Forest Service to take several actions to address the current trail maintenance backlog that is adversely impacting all trail users on many national forests, including equestrians. Specifically, the new law will create a new national strategy to significantly increase the role of volunteers and partners in trail maintenance and a new priority trail maintenance program. The law will also create a program to allow outfitters and guides to treat their national forest trail maintenance activities as an in-kind donation to offset fees owed to the federal government.
- Submitted comments to the U.S. Department of Agriculture's (USDA) Animal and Plant Health Inspection Service (APHIS) requesting important improvements and clarifications to proposed regulations governing enforcement of the Horse Protection Act (HPA). The AHC's comments strongly urged USDA to explicitly limit all new provisions to Tennessee Walking Horses, Racking Horses, and Spotted Saddle Horses, mirroring the widely supported Prevent All Soring Tactics Act or PAST Act. The AHC believes making this change will address most concerns the horse industry has with the proposed rule and will still achieve the goal of ending soring.
- Since 2014, the Time to Ride Challenge has introduced over 90,000 new enthusiasts to horses through 1,500 host stables across the country. These newcomers are the industry's next riders, owners, competitors, clients, customers, and members.

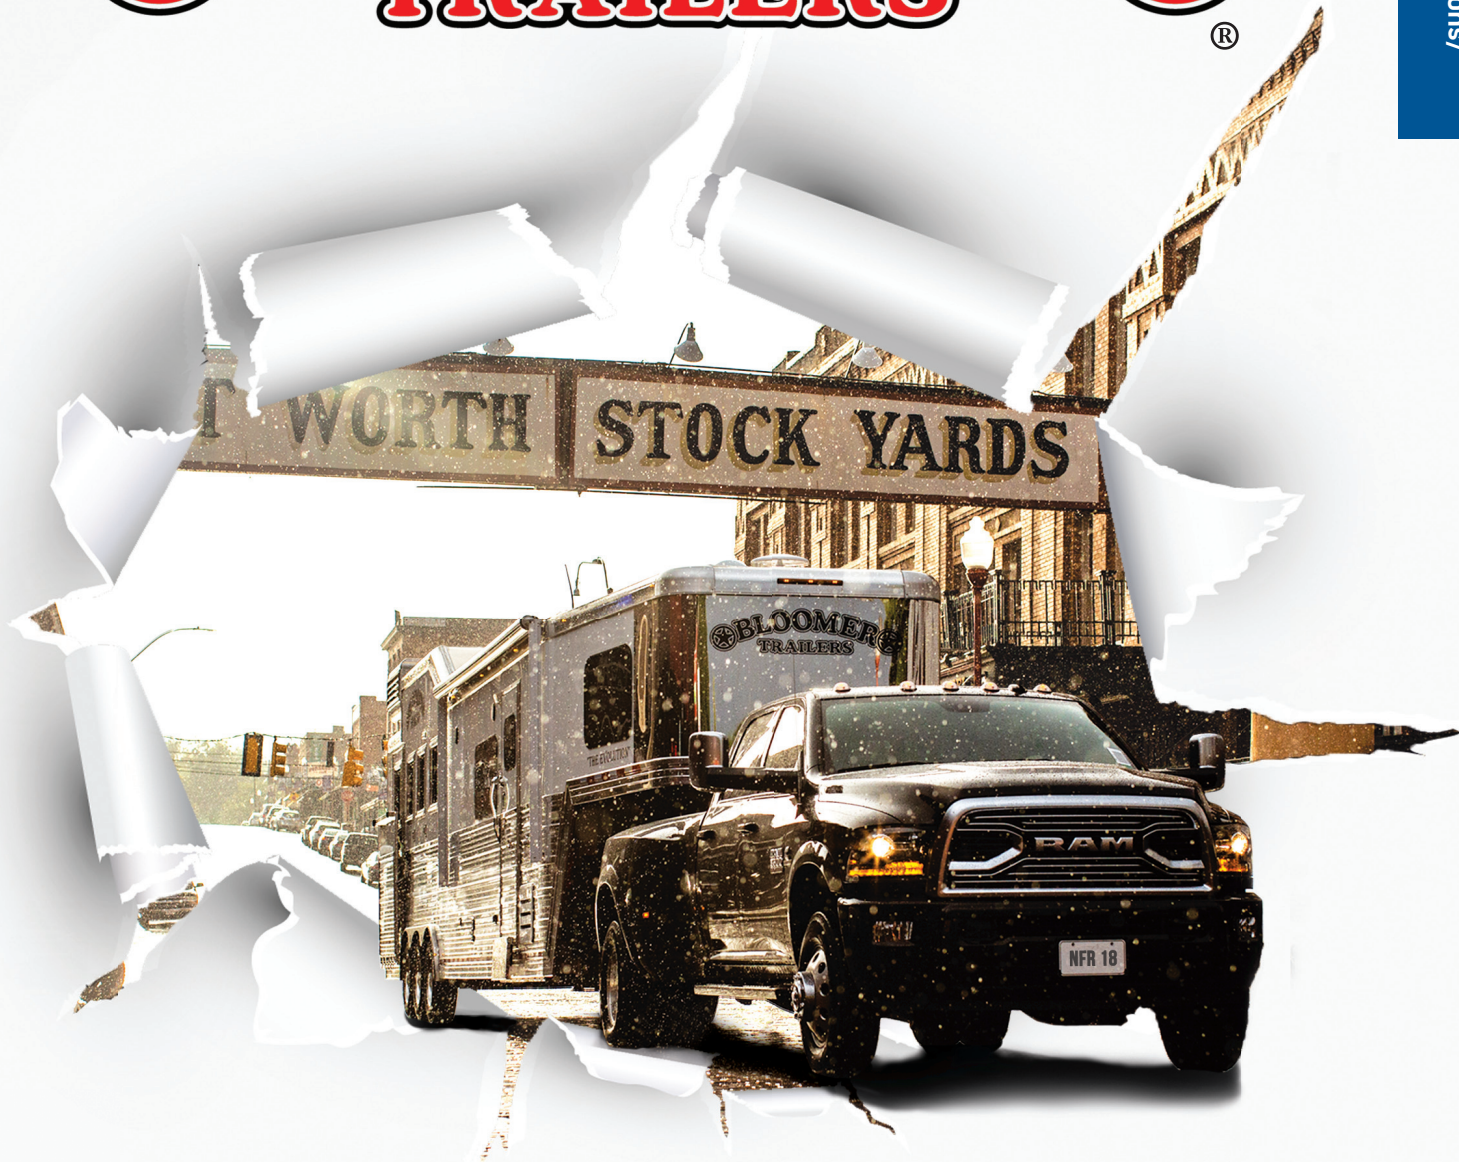

- Worked with other industries to secure, in the FY2016 omnibus spending bill, beneficial provisions relating to the H-2B temporary, non-agricultural worker program, including a returning worker exemption to the visa cap and improvements to some of the most onerous provisions of the 2015 H-2B rule. These changes make the H-2B program less burdensome for employers, including those in the horse industry.
- Worked with other recreational users to re-authorize the Federal Highway Administration's Recreational Trails Program (RTP) that provides \$85 million in annual funding for trails throughout the country. RTP provides funding directly to the states for recreational trails and trail-related facilities for all recreational trail users and has greatly benefited equestrians.
- Launched with the American Association of Equine Practitioners the Equine Disease Communication Center (EDCC) that will collect and report real time information about disease outbreaks as well as provide the information needed to respond to and manage those outbreaks. The EDCC will help protect the horse industry from the threat of infectious disease outbreaks and keep horse moving domestically and internationally.
- Held the second "100 Day Horse Challenge" as part of the AHC's Time to Ride initiative that seeks to increase awareness of, and interest in, horse-related activities. Hundreds of stables, organizations and businesses participated in the "100 Day Horse Challenge" by hosting events that attracted over 41,000 newcomers to horse activities.
- Continued to gain support for the AHC Welfare Code of Practice. The code of practice is a broad set of principles designed to establish good welfare procedures for organizations to follow to "Put the Horse First," and has been endorsed by 53 national horse organizations
- Successfully achieved passage of the Veterinary Medicine Mobility Act (S. 1171/ H.R. 1528), The bill clarifies that veterinarians are allowed to transport, administer and dispense controlled substances and medications outside of their registered offices and hospitals. It ensures equine veterinarians continue to have the ability to provide mobile or ambulatory services in the field to the horse community.
- Helped draft and achieve introduction of the National Forest Service Trail Stewardship Act of 2014 (H.R. 4886). The bill would direct the Forest Service to take several actions to address the current trail maintenance backlog that is adversely impacting all trail users on many national forests, including equestrians.
- Successfully supported reauthorization of the Market Access Program (MAP) until 2018. MAP provides funding for overseas marketing and promotional activities to help build commercial export markets for U.S. agricultural products and commodities. The program is used by the horse industry to promote American horses to foreign markets.
- Successfully supported reauthorization the Environmental Quality Incentives Program (EQIP). EQIP is a voluntary program that provides financial and technical assistance to help agricultural producers implement conservation practices that address natural resource concerns. Horse farms and ranches are eligible for this program.
- Successfully supported reauthorization of several USDA disaster assistance programs, including the Livestock Indemnity Program (LIP), the Livestock Forage Program (LFP), and the Emergency Livestock Assistance Program (ELAP). These programs compensate livestock producers, including horse breeding farms and ranches, for the loss of animals from natural disasters and diseases, and help producers who have lost grazing land from drought pay for feed.

2014 ACCOMPLISHMENTS

- Secured a one year extension of 3-year-depreciation for all race horses retroactive to January 1, 2014. From 2009 through 2013, race horses could be depreciated over three years, regardless of when they were placed in service. That change, which eliminated the 7-year depreciation period for race horses and made all race horses eligible for three-year depreciation, expired at the end of 2013. The extension ran through December 31, 2014
- Helped achieve a one year extension (to December 31, 2014) of several tax provisions favorable to horse owners, breeders, and equine businesses that expired or were reduced at the end of 2013. These provisions included restoration of the Section 179 business deduction to \$500,000 and restoration of 50% bonus depreciation for qualifying new property, including assets used in the horse business, such as horses and other equipment, purchased and placed in service through 2014. Also restored for one year was a favorable tax treatment for land donated for conservation purposes by farmers and ranchers.
- Held the first "100 Day Horse Challenge" as part of the AHC's Time to Ride initiative that seeks to increase awareness of, and interest in, horse-related activities. Hundreds of stables, organizations and businesses participated in "100 Day Horse Challenge" by hosting events that attracted over 25,000 newcomers to horse activities.
- Submitted comments to the U.S. Department of Agriculture (USDA) Animal, Plant Health Inspection Service (APHIS) opposing the proposed removal of Saudi Arabia from the list of African Horse Sickness (AHS) affected countries.
- Continued to advance the National Equine Health Plan to ensure the horse industry, as well as, federal, state and local governments are prepare for and able to respond efficiently to contagious equine disease outbreaks.
- Continued to gain support for the AHC Welfare Code of Practice. The code of practice is a broad set of principles designed to establish good welfare procedures for organizations to follow to "Put the Horse First," and has been endorsed by 48 national horse organizations.

EQUINE WELFARE ORGANIZATIONS (AHC MEMBERS)

COLORADO

COLORADO HORSE RESCUE

Katherine Gregory, Executive Director
Longmont, CO

PHONE: (720) 494-1414 **FAX:** (720) 494-1415

EMAIL: cbrice@chr.org

WEBSITE: www.chr.org

A 501(c)(3) non-profit organization dedicated to providing emergency relief, shelter, care, rehabilitation and adoption services for abused, neglected, abandoned and unwanted horses. Provides community resources through equine education, counseling, information and referral services. Funded through private and individual donations, grants, bequests and corporate sponsorships.

FLORIDA

F.R.I.E.N.D.S HORSE RESCUE & SANCTUARY

Debra Beye Barwick
Fort Lauderdale, FL

PHONE: (954) 609-5943

EMAIL: horserescuer@comcast.net

WEBSITE: www.eiahorses.com

F.R.I.E.N.D.S. is a Horse Rescue, a Quarantine Facility for EIA Horses and a Sanctuary. We accept all EIA positive horses in Florida and any horse in immediate need of assistance in Broward County, Florida.

MARYLAND

THE HOMES FOR HORSES COALITION

Cheryl Jacobson, Deputy Director
Gaithersburg, MD

PHONE: (301) 258-1488

EMAIL: info@homesforhorses.org

WEBSITE: www.homesforhorses.org

The Homes for Horses Coalition is dedicated to ending horse slaughter and other forms of equine abuse, while promoting growth, collaboration and professionalism in the equine rescue and protection community.

NEW YORK

THE RIGHT HORSE INITIATIVE

Christie Schulte Kappert, Program Officer
Katonah, NY

PHONE: (405) 534-5880

EMAIL: Christie.sk@thrighthorse.org

WEBSITE: www.therighthorse.org

On a mission to improve the lives of horses in transition + massively increase horse adoption in the United States. We are Good People for Good Horses.

TENNESSEE

RIVER EDGE FARM HORSE RESCUE

Jane McAllister
Lyles, TN

PHONE: (931) 729-2358

EMAIL: riveredgefarmhorserescue@gmail.com

WEBSITE: www.riveredgefarmhorserescue.org

Rescue starved, abused, neglected or abandoned horses. Rehabilitate with individual feed program, vet care, foot care, training and then adoption to carefully screened individuals. They must meet the terms of the contract and have the proper experience for the horse they choose to adopt.

PUBLICATION: *Louisiana Horse*

The Louisiana Thoroughbred Breeders Association evolved from a small group of horsemen who united in 1963 when only 142 Thoroughbred foals were registered in the state. This group was successful in having legislation passed that created an incentive to bred Thoroughbreds in the state. Since that time, the Thoroughbred industry in Louisiana has grown to become one of the state's top industries.

PUBLICATION: *WHOA News*
The Walking Horse Owners' Association was founded in 1976 to represent the interests in all matters pertaining to the sound Tennessee Walking Horse. THOA's goals are to advocate for fair and equal treatment of all members and to promote and protect the welfare of the breed. WHOA develops and supports programs that increase the value of Tennessee Walking Horses and enhances members experiences with their horses.

Back Country Horsemen of America (BCHA) is a nation-wide organization that is committed to protecting the access of equestrians to public lands. We are devoted equestrians who love to ride and explore new trails. We assist with trail maintenance and improvement projects, keeping trails clear for all user groups. We welcome riders of all types, ages and interests into our chapters!

THE JOCKEY CLUB ONLINE FACT BOOK

The Jockey Club
Shannon Luce
821 Corporate Drive
Lexington, KY 40503-2794
PHONE: (859) 224-2700
FAX: (859)-224-2710
EMAIL: sluce@jockeyclub.com
WEBSITE: jockeyclub.com

CONTENT: The online fact book is a comprehensive guide to the Thoroughbred racing industry in North America with sections on breeding, racing, and sales as well as general information and state, national, and international directories. The Jockey Club is pleased to also provide state fact books. These PDF reports have been compiled as an industry service by The Jockey Club with the intent of shedding statistical light on the Thoroughbred industry within individual states and Canadian provinces, particularly trends that have evolved over the past two decades. Each report contains sections on breeding, racing, and auction sales, with statistics provided courtesy of The Jockey Club, The Jockey Club Information Systems, and Equibase Company. The state fact books are updated monthly.

OSPPOS® (clodronate injection)

FOR EVERY EQUINE DISCIPLINE

The intramuscular bisphosphonate injection for Navicular Syndrome

Learn more online
www.dechra-us.com
www.osphos.com

As with all drugs, side effects may occur. The most common adverse reactions reported in the field study were clinical signs of discomfort or nervousness, colic and/or pawing. Other signs reported were: lip licking, yawning, head shaking, injection site swelling, and hives/pruritus. Osphos should not be used in pregnant or lactating mares, or mares intended for breeding. Use of Osphos in patients with conditions affecting renal function or mineral or electrolyte homeostasis is not recommended. Refer to the prescribing information for complete details or visit www.osphos.com.

CAUTION: Federal law restricts this drug to use by or on the order of licensed veterinarian.

* Freedom of Information Summary, Original New Animal Drug Application, NADA 141-427, for OSPHOS. April 28, 2014.

OSPPOS® (clodronate injection)

Bisphosphonate. For use in horses only.

Brief Summary (For Full Prescribing Information, see package insert)

CAUTION: Federal (USA) law restricts this drug to use by or on the order of a licensed veterinarian.

DESCRIPTION: Clodronate disodium is a non-amino, chloro-containing bisphosphonate. Chemically, clodronate disodium is (dichloromethylene) diphosphonic acid disodium salt and is manufactured from the tetrahydrate form.

INDICATION: For the control of clinical signs associated with navicular syndrome in horses.

CONTRAINDICATIONS: Horses with hypersensitivity to clodronate disodium should not receive OSPHOS.

WARNINGS: Do not use in horses intended for human consumption.

HUMAN WARNINGS: Not for human use. Keep this and all drugs out of the reach of children. Consult a physician in case of accidental human exposure.

PRECAUTIONS: As a class, bisphosphonates may be associated with gastrointestinal and renal toxicity. Sensitivity to drug associated adverse reactions varies with the individual patient. Renal and gastrointestinal adverse reactions may be associated with plasma concentrations of the drug. Bisphosphonates are excreted by the kidney; therefore, conditions causing renal impairment may increase plasma bisphosphonate concentrations resulting in an increased risk for adverse reactions. Concurrent administration of other potentially nephrotoxic drugs should be approached with caution and renal function should be monitored. Use of bisphosphonates in patients with conditions or diseases affecting renal function is not recommended. Administration of bisphosphonates has been associated with abdominal pain (colic), discomfort, and agitation in horses. Clinical signs usually occur shortly after drug administration and may be associated with alterations in intestinal motility. In horses treated with OSPHOS these clinical signs usually began within 2 hours of treatment. Horses should be monitored for at least 2 hours following administration of OSPHOS.

Bisphosphonates affect plasma concentrations of some minerals and electrolytes such as calcium, magnesium and potassium, immediately post-treatment, with effects lasting up to several hours. Caution should be used when administering bisphosphonates to horses with conditions affecting mineral or electrolyte homeostasis (e.g. hyperkalemic periodic paralysis, hypocalcemia, etc.).

The safe use of OSPHOS has not been evaluated in horses less than 4 years of age. The effect of bisphosphonates on the skeleton of growing horses has not been studied; however, bisphosphonates inhibit osteoclast activity which impacts bone turnover and may affect bone growth.

Bisphosphonates should not be used in pregnant or lactating mares, or mares intended for breeding. The safe use of OSPHOS has not been evaluated in breeding horses or pregnant or lactating mares. Bisphosphonates are incorporated into the bone matrix, from where they are gradually released over periods of months to years. The extent of bisphosphonate incorporation into adult bone, and hence, the amount available for release back into the systemic circulation, is directly related to the total dose and duration of bisphosphonate use. Bisphosphonates have been shown to cause fetal developmental abnormalities in laboratory animals. The uptake of bisphosphonates into fetal bone may be greater than into maternal bone creating a possible risk for skeletal or other abnormalities in the fetus. Many drugs, including bisphosphonates, may be excreted in milk and may be absorbed by nursing animals.

Increased bone fragility has been observed in animals treated with bisphosphonates at high doses or for long periods of time. Bisphosphonates inhibit bone resorption and decrease bone turnover which may lead to an inability to repair micro damage within the bone. In humans, atypical femur fractures have been reported in patients on long term bisphosphonate therapy; however, a causal relationship has not been established.

ADVERSE REACTIONS: The most common adverse reactions reported in the field study were clinical signs of discomfort or nervousness, colic and/or pawing. Other signs reported were lip licking, yawning, head shaking, injection site swelling, and hives/pruritus.

GUIDE TO INTERSTATE HEALTH REQUIREMENTS

Each state establishes its own rules for animals entering its borders. These requirements are often amended. What is listed here is not comprehensive, but only a guide. We advise that you check with the state veterinarian (listed on pages 143-148) at your destination prior to shipment for updated regulations, particularly with regard to age requirements for EIA testing. Regulations are in effect as of January 2015. Please visit the Equine Disease Communication Center (EDCC) website for more information: <http://www.equinediseasecc.org/> or <http://www.interstatelivestock.com/>

State	EIA Test Required	† CVI*	Temp. Reading
Alabama	Yes	Yes	No
Alaska	Yes	Yes (ii)	No
Arizona	Yes (A)	Yes (iv)	No

West Virginia	Yes (E)	Yes	No
Wisconsin	Yes (A,B)	Yes (iv,x,xi)††	No
Wyoming	Yes (A,B)	Yes	No

†† When EIA test is required, laboratory name and address, accession number and test date with results must be included.

* Certificate of Veterinary Inspection (CVI) filed with the state veterinarian in state of origin are required.

** Recommended.

*** Import permit for all horses which will reside permanently.

Footnotes for EIA Testing

- (A) No Pending EIA test allowed.
- (B) Suckling foals under six-months, accompanying EIA-negative dams are exempt.
- (C) EIA test required within 6 months for sale or auction.
- (D) EIA test required for equine from all states except South Dakota. For specific states contact state veterinarian.
- (E) 12 months if state of origin has a state EIA program.
- (F) Test chart must accompany animal. Some states require original copy.
- (G) Permit required if EIA test is pending when horse is shipped.
- (H) Permit and EIA test required for National Rodeo Finals. Nevada: no permit required.
- (I) EIA test within 60 days if going to public auction.
- (J) Horses traveling between Idaho to Oregon and Washington are exempt.
- (K) Individually identified using a lip tattoo; individual brand, registration number if accompanied by registration papers; or a descriptive marking with name.
- (L) Native horses from North Dakota, Nebraska and Montana

Footnotes - Certificate of Veterinary Inspection (CVI)

- ((i) Pre-approved CVI from state of origin required prior to shipment.
- (ii) Permit from the state of destination is required prior to entry. Texas: slaughter horses only.
- (iii) U.S. origin CVI, endorsed by a USDA approved veterinarian, valid 30 days from date of inspection.
- (iv) Complete description of horse including brands or tattoos.
- (v) Approved copy of CVI must be submitted to state veterinarian's office after entry.
- (vi) State has requirements regarding vaccinations, testing or other.
- (vii) 6 month CVI and permit available to reciprocal Western states of CA, ID, MT, NV, OR and WA.
- (viii) Exhibition permit available for show season, contact state veterinarian office.
- (ix) Can also use official 6 month passport
- (x) Not required on horses in state less than 7 days.
- (xi) a Vesicular Stomatitis Statement is required on the certificate of veterinary inspection.
- (xii) an Equine Piroplasmiasis statement is required on the certificate of veterinary inspection.
- (xiii) Originate in an area or county in which equine encephalomyelitis has not occurred in the six-month period prior to shipment.

Nutrena[®]

What's inside counts.

Nutrition you
can count on for
healthy, happy horses.

The time-tested, controlled starch formula for all life stages

- IDEAL FOR HORSES WITH SUGGESTIVE DISTURBANCE
- OVER A DECADE OF PROVEN CONTROLLED STARCH FORMULA

Advanced science approach to equine health

14% PROCELP 7% FAT 15% FIBER

We know what it takes to provide the balanced nutrients your horses rely on to look and feel their best. It comes down to what's inside the feed. That's why our SafeChoice[®] products are leading the controlled-starch market. It's also why we're always working to stay ahead of the curve on equine nutrition and topline health. Because the two go hoof in hoof.

VISIT TOPLINEBALANCE.COM TO TAKE OUR TOPLINE ASSESSMENT.
